

Internal pull-out Pinello Inside Towel

Full-extension interior pull-out with integrated towel rail for base cabinets with hinged doors

Enhance your base cabinets – the towel-rail option

Practical and hygienic: Pinello Inside Towel makes optimal use of the space next to water treatment equipment. Towels hang out of sight to dry, and there is plenty of space for cleaning products and accessories. The full-extension pull-out provides an excellent overview of and easy access to stored items, even when towels are hanging to dry. Removable non-slip silicone mats keep stored items secure. The pull-out can be precisely installed in one minute, can be fitted on the left or right side and is easy to retrofit – without any modifications. The shelves can be custom organised using the optional accessories.
