

Internal pull-out Pinello Inside Sink

Asymmetrical, full-extension interior pull-out for under-sink cabinets with hinged doors

Enhance your base cabinets – the under-sink option

Transform the unused space under the sink into practical storage space with Pinello Inside Sink. Organise your bottles, cleaning products and cleaning equipment and keep them within easy reach with this full-extension pull-out for base cabinets. Removable non-slip silicone mats ensure that stored items are held securely and that the pull-out can be kept clean. The slim upper shelf leaves sufficient space for the sink trap and allows for flexibility in planning. Attach and secure: Pinello Inside Sink is mounted on the base of the cabinet and can be fitted on either side. Retrofitting in existing kitchens takes just one minute and requires neither cabinet conversion nor special tools.
